About Proud Indian

Ever since its Inaugurated on 26th January 2019, Proud Indian has been working laboriously and tirelessly with one single goal - eradicating poverty in India.

The Proud Indian NGO started as a small group of friends with similar motivations, with experience in numerous social upliftment projects and have been growing ever since! With extensive research, mapping and several rounds of discussion with experts to eradicate poverty, Proud Indian's aims to build self-reliant communities by providing necessary business-oriented training, assets and opportunities to those who need the most. While

preserving the sustainability of our projects, Proud Indian strongly believes that the real development is how much the poor get richer. - Team Proud Indian

Co – Founder's Message

"I strongly believe that we can uplift the society only through education and awareness". Through Proud Indian, we reach out to the low-income communities from the most backward parts of the Bengaluru city and nearby places and provide them a platform where they can improve basic spoken English skills and their knowledge about government schemes(Know Your Benefits Program). "I believe that the beneficiaries of Proud Indian can positively change society."

- S Chenthil Kumar | Co-founder

"I believe that poverty is not a money problem, it's a lack of opportunity and guidance within society". By working more in social projects and with similar minded friends, we created this organization. Our project is designed to understand people's problems and help them in the best possible ways. Our long term goal is to make this organization help many slum communities across the nation in general.

Education

Key For Success(KFS) has been working for one year to ensure standard public service training for graduates especially for girls and those from low-income communities in the semi-rural and rural part of India. It aims to help them become qualitative

and non-corrupted officers in future. We see education as an imperative tool for girls to realize their maximum potential by gaining crucial skills and dispositions that set them on the path of social and economic empowerment.

Nutriton

We believe that improving the nutrition of the children is vital to build a healthy community. A healthy diet throughout life promotes healthy pregnancy outcomes, supports normal growth, development, aging, helps to maintain a healthy body weight and reduces the risk of

chronic disease leading to overall health and well-being.

Care About Earth

We have been working towards cleaning public places such as waterfalls, parks, and lakes to ensure quality spaces for the public. Citizens play a crucial role towards a safer and sustainable environment, and we, Proud Indians, strongly feel

that there is a lack of awareness in this regard. To bridge this gap, we actively create awareness programs among citizens and organize activities related to creating a greener environment.

Thank You Message

On behalf of the entire finance team, I would like to express my heartfelt gratitude to our donors for your unwavering support and generosity throughout the past year. Your trust in our organization has allowed us to allocate resources efficiently, ensuring that every rupee is put to the best possible use. Because of your generous support, we have been able to expand our programs, reach more individuals in need, and create lasting change. None of this would have been possible without your ongoing support. Besides financial contributions, we have been inspired by your belief and passion in our work. Your commitment to our mission has resonated with our team, motivating us to work tirelessly to achieve our goals. Once again, I extend my deepest appreciation for your

continued support, both financially and morally. We are privileged to

have you as a part of our donor community, and we look forward to

another year of collaboration, innovation, and positive changes.
